

SIBIYA FLORAH NOLITHA

Cell: 0649288938

Email: sibyanolitha5@gmail.com

PROFESSIONAL SUMMARY

Full-stack Software Developer with experience in building scalable web applications using React.js, Node.js, and modern databases. Skilled in integrating AI solutions, including agentic AI systems and FastAPI-based models, to automate processes such as CV screening and smart health recommendations. Strong problem solver with hands-on experience in real-world projects, system development, and continuous learning in cloud and AI technologies.

CORE TECHNICAL SKILLS

Languages: JavaScript, Python, C++

Frontend: React.js, HTML, CSS, Bootstrap

Backend: Node.js, Express.js, Django,

FastAPI Databases: MySQL, PostgreSQL,

MongoDB

AI & ML: Agentic AI systems, NLP basics, AI model integration, FastAPI deployment

Tools & Platforms: Git, GitHub, REST APIs

Other: Debugging, System Design, Agile collaboration, Microsoft word, Microsoft Excel

SOFT SKILLS

- Strong communication (written and verbal)
 - Team collaboration
 - Time and priority management
 - Attention to details
 - Problem-solving,
-

EDUCATION

National Diploma in Information Technology: Software Development -Tshwane University of Technology (2025)

Grade 12 - Sibusisiwe Secondary School (2017)

PROFESSIONAL EXPERIENCE

Software Development Intern (WIL Programme)

4IR TUT | 2025

- Developed and maintained web application features using React.js and Node.js
- Collaborated with teams using Git for version control and project coordination
- Performed debugging and optimisation of existing systems, improving reliability
- Participated in database design and management using MySQL/PostgreSQL
- Contributed to documentation and reporting for ongoing development projects

Graduate Intern (AI & Software Development)

4IR TUT | 2026–Present

- Built AI-driven applications, including CV screening and smart health assistant systems
- Integrated AI models with backend systems using Fast API
- Worked on agentic AI concepts to automate user-driven processes and decision-making
- Conducted research and implemented AI-based solutions for real-world problems
- Collaborated in a team environment to deliver functional software solutions
